

Flipping the Switch // WORD SCRAMBLE

Brought to you by Lincoln Electric System & the LES ENERGIZERS

Did you know you can save energy in your home every day? Turning off or unplugging appliances and electronics that are not in use gives you the power to save energy! For example, while the sun is shining, windows can allow sunlight into your house without having to turn on a lamp or a light switch.

Unscramble the letters to reveal the names of common appliances and electronics that you should turn off or unplug when not in use. Use the pictures below for clues.

APPLIANCES

1. GLEICIN NAF _____
2. HTATOSMERT _____
3. GHTIL HTCWIS _____
4. ONSILEETVI _____
